

Parent Permission for Pacifiers

In order to reduce the risk of Sudden Unexpected Infant Death, including Sudden Infant Death Syndrome, suffocation and other sleep related deaths, Colorado Rules and Regulations for both Family Child Care Homes and Child Care Centers require that infants one month and older be offered a pacifier for all sleep times with parent permission.

Name of Child Care Facility Little Sprouts Learning Center License # 1627441

Parent Permission:

Child Name _____ Date of Birth _____

Pacifier: Colorado Rules and Regulations for Family Child Care Homes and Child Care Centers require that infants one month and older be offered a pacifier for all sleep times only with parent permission.

☐ Yes, use a pacifier during sleep time

☐ No pacifier at sleep time

I also understand that no infant will be forced to use a pacifier; the pacifier will not be placed back in the infant's mouth once the infant has fallen asleep and the pacifier falls out, the pacifier will not be coated in any sweet solutions and the pacifier will be cleaned and replaced regularly. Pacifiers will not be attached to clothing in any way and the use of pacifiers with attached stuffed animals is discouraged.
